Item 1.01 Entry into a Material Definitive Agreement

Effective December 16, 2018, the Registrant entered into an agreement with Dermagate, Inc. to manufacture, assemble, and supply 5,000 units of its MSN-2 medical device, Hygee™, for purchase by Registrant, on an exclusive basis (“Hygee™”). The parties have agreed to start manufacturing the 5,000 Hygee™ units in the weeks following execution of the agreement. The pricing will be based upon the labor costs and a portion of Dermagates administrative costs in producing the units. In addition Dermagate will receive a fraction of the profit made on each sale of Hygee based on the country where Hygee™ will be marketed.

The agreement is preliminary in certain respects and fixed as to others, the parties have determined the initial number of units that will be produced and the method of determining cost; however, the final numbers and percentage of profits as to specific countries is still being determined as of the execution of the agreement.

The Hygee™/MSN-2 Device

The Hygee™ device itself, is a modified panty liner worn by women to allow for the self-collection of a gynecological specimen. Currently the device allows human cells to be collected and tested for two types of infections, Chlamydia and Gonorrhea. It provides women with the ability to be self-collect specimens in a non-clinical setting, send them to a laboratory that will process the specimens and notify them if they test positive for either sexually transmitted disease so that they can seek treatment. This technology allows the Company to provide diagnostic services to high-risk women and girls who are not inclined to visit traditional medical settings. The kit can be ordered on-line for home screening.
